REMARKS This is UNEVALUATED

1. Between 0800 and 1200 on 3 June 1954, 32 MiG-15s were observed at Deutsch Wagram (33 U; XP 1651) airfield. There was no air activity. There was a 1/10 overcast, southwesterly wind at about 10 km/h and excellent visibility. 25X1
2. About 20 auxiliary fuel tanks for MiG-15s were stored without an apparent pattern in the area of the aircraft repair shop at Deutsch Wagram. No gray crates were seen. Only two soldiers wearing black-bordered blue epaulets were seen in the repair shop. 25X1
3. A total of 36 motor vehicles, including trucks [REDACTED] and van-like truck [REDACTED] were counted in the area of the camp at the edge of the woods at Strasshof. Signal trucks [REDACTED] and 1 trailer, the interior of which was fitted with switchboards similar to a mobile flight control station, were parked in the yard of building No 26 on Lendler Gasse. Solid fuel was no longer stored there. 25X1
4. Between 1000 and 1300 on 4 June, about 30 MiG-15s were parked at Deutsch Wagram airfield. No flying was practiced. There was a closed ceiling at an altitude of about 1,500 meters, southeasterly wind at 5 km/h and poor visibility. Three canvas-covered 37-mm AA guns were observed in the AA gun emplacements. Jeep [REDACTED] and trucks [REDACTED] all of them with drivers wearing black-bordered blue epaulets, were identified in traffic at the field. 25X1
5. About 40 cables of telephone lines terminated in building No 28 on Bahnhof Strasse in Strasshof. Trucks [REDACTED] van-like truck [REDACTED] and jeep [REDACTED] all of them with drivers wearing black-bordered blue epaulets, were parked in front of the storage depot at building No 10 on Gaenseradorfer Strasse. Trucks [REDACTED] all of them with drivers wearing black-bordered blue epaulets, were parked in front of buildings Nos 6-8 on Dockfliebs Gasse. Twenty-three motor vehicles, including 6 tank trucks and trucks [REDACTED] were observed at the motor vehicle park. 25X1

7. One Kniferest-type radar set, 2 Fishnet-type radar sets and 1 Token-type radar set were observed near Parbasdorf (33 U:XP 1849). A small cone-shaped antenna with disc on top was being erected on an 8-meter-high antenna mast in Parbasdorf. [redacted]

1. [redacted] Comment. The present report does not indicate any change in the occupation of Deutsch Wagram airfield. One fighter regiment of the Fifty-Ninth Air Army is believed to be stationed there. 25X1

2. [redacted] Comment. A radar station near Parbasdorf was reported previously. 25X1 For the first time, however, the new equipment with 1 Token-type, 1 Kniferest-type and 2 Fishnet-type radar sets is reported; during the last observation in November 1953, only 1 Kuz-2 set had been determined. Previously, a Token-type set has been observed on those airfields of the Twenty-Fourth Air Army at which the headquarters of a fighter division was stationed. The presence of a radar station near Parbasdorf may, therefore, indicate that a fighter division headquarters is located at Deutsch Wagram.
